Downloadable Audiobooks Now Available!

Patrons now have anytime, anywhere access to more than 5,000 downloadable audiobooks, and more titles are added every month. eAudiobooks are digital audiobooks that can be downloaded to your computer, laptop or portable device. Our eAudiobooks come from Recorded Books, so you can find many of your favorite authors and readers. Selections include classics, popular fiction, nonfiction and more. We will also have some titles that can be played on iPods. Also, eAudiobooks are automatically returned to the library at the end of the checkout period. Patrons with a NetLibrary eBook account are all set. New users may need to stop by the library and create an online account. Once you create your account, go to www.NetLibrary.com and follow the instructions for downloading the NetLibrary Media Center.
